## 01 / COMMERCIAL FRAMEWORK

# The terms, clearly stated.

A concise commercial overview. All terms remain subject to supplier confirmation, compliance and written agreement.

## 100,000 MT

MINIMUM PER SHIPMENT AND PER MONTH

|             |                                                   |
|-------------|---------------------------------------------------|
| REFERENCE   | EN590/SP/COG/05252                                |
| DATED       | August 21 2026 (as stated in the source document) |
| PRODUCT     | EN590 10PPM ULSD                                  |
| ORIGIN      | Azerbaijan                                        |
| LOADING     | Batumi, Georgia (seller option)                   |
| DELIVERY    | CIF any safe port                                 |
| ELIGIBILITY | Contract-ready, qualified buyers only             |
| PRICING     | Each buyer is quoted individually                 |

### INDICATIVE PRICING

The source states “\$10 discount to Platts Mediterranean Benchmark” and also “Rotterdam minus \$10USD”.

These descriptions are not reconciled here. Confirm the benchmark and final discount in writing with the supplier. Each buyer is quoted individually; pricing is not guaranteed. Fixed term pricing may be available by mutual agreement.

## 02 / BUYER QUALIFICATION

# Prepare. Verify. Proceed.

Complete the requested compliance package before advancing to a final quotation and contract.

## REQUIRED SUBMISSION

- 01 Letter of Intent (LOI) addressed to TruxEnergy Group.
- 02 Complete Buyer CIS (Corporate Information Sheet).
- 03 Signed Acceptance Letter, accepting the enclosed procedure.
- 04 Proof of Funds: bank statement, or balance screenshot/photo, showing the buyer company name.

## AFTER COMPLIANCE

- 01 TruxEnergy issues the final quotation and procedure.
- 02 Pro forma agreement is reviewed.
- 03 A signed agreement leads to a conference with the supplier, and supplier details are provided for the ICPO.
- 04 The CIF procedure below then follows.

## SUBMISSION RECIPIENT

**truxenergygroup@gmail.com**

Recipient as stated in the source instructions. Independently verify the recipient and approved secure process before sharing any banking documents.

If a DLC is unavailable, an SBLC may be considered only following a formal written request and approval.

### PROTECT SENSITIVE FINANCIAL INFORMATION

Never upload or submit banking documents through the public IMOS website. The website does not collect them. Do not treat a document recipient or a payment request as independently verified by this brochure.

## 03 / CIF TRANSACTION PROCEDURE

# Contract to bank instrument.

CIF procedure / Steps 01–05. Responsibilities and timing as stated in the supplier instructions.

01

## Buyer ICPO

Buyer issues the ICPO, including complete banking information and the CIS.

02

## Seller draft contract

Seller issues the draft contract.

03

## Electronic signatures

Both parties sign the contract electronically.

04

## Lodge with banks

Contract is lodged with the respective banks within 24 hours.

05

## DLC and performance bond

Within 10 banking days, buyer opens a DLC via SWIFT MT700 to the seller bank. Seller issues a 2% performance bond, and NCNDA/IMFPA are signed with intermediaries.

Timing is reproduced from the supplier instructions, not an IMOS guarantee. Confirm instruments, banking arrangements and contractual obligations with your professional advisers before proceeding.

Cover: Port of Savannah, Jerry Glaser / U.S. Customs and Border Protection via DVIDS (public domain). Illustrative only; no agency endorsement or IMOS port ownership is implied.

# Loading to recurring delivery.

CIF procedure / Steps 06–10. Alternative arrangements require written agreement and confirmation.

06

## Alternative to DLC

If a DLC is unavailable, a BCL is provided together with an agreed minimum deposit. The deposit enables vessel charter and loading, and is credited against the final discharge-port payment.

07

## Loading and inspection

Seller commences loading “during the approved terminal” (source wording; request written clarification). After loading, an SGS quantity and quality inspection is carried out, and full copies of POP, cargo-loading and transport documents are provided.

08

## Arrival and payment

On arrival, SGS and/or CCIC destination inspection is performed. Within 48 hours, buyer pays by T/T the full cargo invoice value, based on the post-loading SGS quantity.

09

## Title transfer

After payment, seller transfers title and the original shipping documents. Commissions become payable immediately on receipt.

10

## Monthly deliveries

For subsequent monthly CIF deliveries, buyer provides an MT700 DLC for the full monthly value.

Step 07 retains ambiguous source wording; request written clarification. This newly authored brochure reproduces the requested instructions, not the restricted original document. It is not an offer, quotation, commitment or guarantee of supply, pricing or outcome.
